

AXEL

CHEMICAL TOLL MANUFACTURING SERVICES

Contract Manufacturing

THE AXEL DIFFERENCE

AXEL is an experienced provider of chemical toll manufacturing services to a broad range of chemical markets. Operating in Monroe, Connecticut, we have a small volume focus, and can provide fast, reliable manufacturing solutions for your unique needs.

In addition to liquid, powder, and pellet blending, AXEL has the capacity to ship, handle, and store flammables, corrosives, and hazmats. Our facility is dye and perfume-free, in addition to being certified to the ISO 9001:2015 standard and in process of 14001 and 45001 certifications. Our highly responsive customer service team can accommodate short lead times and flexible scheduling. As a chemical toll provider and contract manufacturer with over 80 years of B2B experience, AXEL provides our customers with solutions to their own internal manufacturing limitations and unleash their potential.
